Glimpse Into the Performance

Opening night! It was 26° outside when actors and crew began arriving tonight, a little chilly. Sweep/mop had already started by 6:30, and our pre-show routine ran smoothly. At 6:40 Jack, Renee, Xander, and Sam met on stage for fight call. This had ended by 6:50 for our PAs/ASMs to finish setting up for Act I. Darby was still having walky-talky troubles, but was able to communicate with house management for doors to open on-time at 7:00. We held two minutes for house, then at 7:32 Jake was our Rich Dionne and gave us a lovely pre-show speech to our house of 180. Act I definitely had a different vibe since there were people there to laugh at jokes! Was interesting to hear the audience giggle and enjoy the first part of the act, go dead silent after the first rustle, then become all laughy again after Gibson pulled out his 'I'll stay away FOREVER!'. Our first intermission ran two minutes long for us to find a fix for Britney's pants (see **Costume Notes**). Act II then started at 7:23. Some of the highlights included the raving applause after Chart Hits, the reactions to Quincy going off on Maria, and the nervous laughter as lights came up on our second intermission. Our second intermission ran two minutes long as well, just waiting for actors to finish getting into costume. Act III went well, we still had some trouble with Lisa's mic. After the show concluded, actors got out of costume, and everyone enjoyed the APO red carpet event. At the end of the night the PAs and ASMs completed their post-show duties. A wonderful first performance.

General Notes

- **201 VISIT.** The THTR 20100 visit will occur on February 28th at 9:00am in WALC 1132.

Costume Notes

- **BRITNEY'S ACT II PANTS.** The string in Britney's Act II pants broke around the knee on the right pant leg and slightly delayed the start of Act II. It was safety-pinned so it wouldn't open on stage, but it could not be completely fixed within the time frame.
